Drilling practices and technology"*

AMERICAN ASSOCIATION OF DRILLING ENGINEERS
APPALACHIAN CHAPTER
2017-2018 SCHOLARSHIP

Dear Counselor,

Once again AADE Appalachia is soliciting your help to identify and encourage candidates from your school to apply for one of the twenty (20) scholarships that we will award to freshmen entering college in the fall of 2017.

If they are able to secure one of these twenty \$1000 scholarships; upon completion of their freshman year, they will become eligible to apply for one of three (3) planned \$2000 annual scholarships which may be in effect for the remaining three (3) years of college. The total potential AADE aid could amount to \$7,000 over 4 years.

To qualify the candidate must meet the following criteria:

- a) Graduate from High School with a GPA or GPR of 3.5 or above
- b) Scored a minimum 27 on the ACT, or minimum of 600 in Math and 600 in Critical Reading on the SAT (Selected candidates will have to submit their scores for ACT or SAT).
- c) Be enrolled in an accredited college in Pennsylvania, Ohio or West Virginia
- d) Be a citizen of the United States of America
- e) Submit a fully completed and signed AADE Scholarship Application

The application must be received by Don Robinson via email (aade@rangeresources.com) no later than April 15, 2017. To retrieve the application go to:

<http://www.aade.org/chapters/appalachian-basin/>

The Scholarship Committee shall recommend scholarship awards to the AADE Appalachian Chapter Board of Directors for final approval so we expect to notify the students by May 15th.

We would appreciate if you could also post this flyer in a prominent spot in your High School to make others aware of the opportunity. Thank-you in advance for any assistance you can provide. Feel free to contact me by email if you have any questions.

Don Robinson

A handwritten signature in blue ink that reads "D K Robinson".
